### County Agricultural Association Notes

F. J. Libby of Newport reports a ten per cent increase from spraying with bordeaux mixture for blight on his potato crop.

A good number have already stated their intentions of going to Burlington to visit the agricultural college and experiment station on Oct. 26-27. Several members have said that they are going to take their wives. The ladies are very welcome to go on the trip and the county agent is arranging for them to inspect the home economics department of the university. We want a large representation from Orleans county and urge everyone to take advantage of this opportunity.

The local meetings have started off very well with an average attendance of about thirty. The members are making the meetings very interesting by free and informal discussions. A chairman is elected in each town to conduct the local organization and a delegate to represent the town in the advisory council. The men elected are as follows:

| Town      | Chairman      | Delegate     |
|-----------|---------------|--------------|
| Troy      | Geo. Bartlett | A. Jenkins   |
| Lowell    | Guy Kinsley   | W. H. Farman |
| Westfield | H. E. Grey    | W. A. Young  |
| Irasburg  | C. T. Metcalf | E. A. Pike   |
| Coventry  | J. J. Labelle | W. G. Gorham |

### A Good Cow.

One cow in the Irasburg Cow Testing association owned by E. Hitchins of Brownington gave 1085 pounds of four and one-half per cent milk in 304 days, making 48.9 pounds of butterfat. A feature about this record is that the cow was eating only 189 pounds of grain and 1037 pounds of corn fodder beside what she gets from the dry pasture. Has anyone a cow with a better record?

### Supt. Stone and McBrien Speak.

Superintendent of Education Mason S. Stone and Mr. McBrien of the United States educational commission were in town Monday afternoon and evening to address an assemblage of people in the high school room. It was hoped to organize a parent-teachers organization in the afternoon, but there was not a sufficient number present, although both Mr. Stone and Mr. McBrien spoke.

In the evening nearly 200 gathered in the school room to listen to the addresses and exercises which consisted of music by the school orchestra and the girls' chorus. Supt. Stone introduced Mason S. Stone, who paid a compliment to the spirit of the citizens of Barton in erecting and maintaining so fine a school property. He referred to the report of the educational commission just issued and spoke of the advances that he felt sure were bound to come relative to changes in the educational system and curriculum. Mr. McBrien spoke at some length giving touches of his experience in many states in educational matters. He particularly brought out the educational situation in the south and stated that he believed that the education of tomorrow would be determined by one's ability to apply his knowledge and not by one's ability to conjugate all the verbs in the Greek language. He warmly approved of domestic science, manual training and the general trend of educational courses today. At the close of a social hour was spent and coffee and crullers were served by the girls of the domestic science department.

The war relief fund which is being raised by the Vermont chapter of the Red Cross for the relief of suffering caused by the war in Europe, is fast reaching large proportions, \$2,991.66 having already been sent from this state. The Boston & Maine railroad finds that it cannot legally stop any train on signal, at points where the train is not scheduled to stop on the time card, and trains which have heretofore been stopped on several occasions to accommodate patrons, cannot hereafter be stopped except in cases of extreme emergency, such as serious accidents. An order to this effect has been issued to all station agents along the system.

One at a time our baseball enthusiasts, who attended the two games of the World series at Boston have returned, until the roll is again complete. None of them would have been sorry to have had the Monday 12 inning game stopped in the 11th inning as a tie, as it would have afforded them the opportunity of seeing a third game, but all of them agree that the Boston Braves were absolutely unbeatable.

The new road on South Main street is now completed, and does away with a bad strip of muddy road always full of holes and waterbars. This newly built portion commences at the freight depot and extends to the state road built four years ago about a half-mile. It was commenced last fall but could not be completed at this time. The streets of the town are all of them now in fairly good shape, although some attention must be given Main street in places, and little pains seems to be taken to keep clean crossings.

### Montreal Buildings Dynamited.

The report that the Germans had entered Montreal simmers itself down to this. Two men, believed to be Austrians, were killed about 6 p. m. last evening, when they carried a dynamite bomb into tenements occupied by Russians on Frontenac street, Montreal. The building was completely wrecked from cellar to roof and how anyone escaped is a mystery. The explosion was audible for a mile. In less than half an hour those pinned in the wreckage had been taken out. So far as is known, however, the only ones killed were the instigators of the plot. Eleven Russians have been held for examination as well as the two young men who claimed to be passing at the time of the explosion. Instructions will be given the police today to round up all foreigners in the foreign quarter and detectives have been placed on the case to determine the actual cause. Of the seven taken to the hospital, three will die.
